## **DETAILED ACTION**

## Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 51-59, 75-77, 79-81, 84-87 and 89-90 are, drawn to a resistor having a terminal with a concave groove.

Group II, claim(s) 60-63 are, drawn to a resistor having a terminal with an L-shape.

Group III, claim(s) 64-69 and 72 are, drawn to a resistor having four terminals (two on top and two on bottom).

Group IV, claim(s) 70-71, 73-74, 78, 82-83, 88 and 91 are, drawn to a resistor having a terminal having a protrusion.

- 2. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical features of a groove, an L-shape, four terminals and protrusions are distinct so that the Groups are not linked together.
- 3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
